CASH INFINITY®
SMART Cash Management
GLORY Retail Solution offers SMART cash management. It provides total secure closed cash handling, centralised control of cash inventory and optimisation of all cash processes throughout a store. CASHINFINITY® is the most advantageous cash management system with remarkable flexibility and extensibility for retailers to fit any size of store, various business segments and each investment plan.

Cash handling within the retail sector is costly and requires significant staff resources at all steps of the process. That’s why accuracy, efficiency and security are important. The retail sector is very diverse, and therefore a complete range of solutions is necessary to cater to the specific needs of each shop or chain store.

CASHINFINITY® offers many benefits for retailers

- High security against attacks and theft
- Improves productivity, customer service and fund efficiency
- Eliminates discrepancies in cash
- Reduces CIT pick up and delivery
- Real-time inventory of cash / status management

1. CI-100
The cash recycling system CI-100 handles not only the interface cassette of the CI-10 but also the loose notes from a manual cash drawer. This unique function gives retailers flexibility and extensibility. Direct coin dispense into the specified manual cash drawer enables the cashier to prepare change funds quickly and easily. Two types of banknote collection (safe bag or collection cassette) are available.

2. Interface cassette
The interface cassette is a key component of the CASHINFINITY® secure closed cash management. Interfacing CI-10 and CI-100, banknotes are transported securely from front office to back office or from back office to front office without exposure.

3. CI-10
The compact cash recycling system CI-10 is stylishly designed in straight lines so that it can be integrated into cash desks and self-checkouts easily. A “Follow me” LED sign helps customers to operate the device by themselves comfortably. A stacking collection cassette is also available, in case the CI-100 is not part of the system.

4. CI-SERVER
CI-SERVER cash management software can be operated via a web browser, offering centralised cash management throughout a store: within the front/back office, when the interface cassette is in transportation and the safe in the back office.

5. Integration into POS system
CASHINFINITY® uses its existing POS system network so that there is no need to invest in additional infrastructures. With CASHINFINITY®, our strategy is to be open and able to integrate with other systems.

6. Manual cash drawer
CI-100 counts and dispenses in two ways: loose notes and also via the interface cassette, so that not only the CI-10 but also manual cash drawers can be available at the checkout. This remarkable flexibility allows various deployments to be made to suit different investment plans.
Streamlines daily work of manager / cashier

Cashier prepares change fund
Manager reconciles at the end of the day
Cashier transports interface cassette to front office
Cashier deposits day sales
Cashier transports interface cassette to back office
Cashier replenishes change fund
Cashier works with automated cash in/out processing
Cashier changes shift
Cashier collects day sales

Functionality highlights

Exit shutter
Avoids handing over partial change to a customer in the event of an incomplete dispense due to jamming/inventory issues.

Collection through outlet
Allows for non-stop coin collection into the bag/tray.

Slide extension unit
Makes integration into various cash desks easier, height is also adjustable.

Free layout of recycle module
Frequently used denominations can be assigned to multiple recycle modules.

Reject foreign objects
Enables non-stop counting and reduces jam rate.

Error recovery animation
If an error occurs, the POS screen can show a troubleshooting animation to resolve the problem.

Other integration examples

As self-checkout

As self-payment

Compact, stylish and highly user-friendly, the CI-10 integrates into self-checkout and self-payment applications.
CASHINFINITY® solution portfolio

Banknote recycler of CI-10
CI-10B
- 3 recycle modules
- 100 notes / recycle module
- Selectable collection: 450 notes (SCC) / 300 notes (IFC)
- Total: 750 notes (SCC) / 650 notes (IFC)
- Counterfeit detection
- "Follow me" LED sign
- Exit shutter
- Slide extension unit
- Control PC included (controls CI-10B, CI-10C)
- SCC – Stacking collection cassette
- IFC – Interface cassette
- Dimensions: W×D×H (adjustable)
  240 × 483 × 820–850 mm
- Capacity: Selectable collection
  30 notes / cycle
  Cash in: 3 notes / sec.
- Inlet: max. 30 notes
- Outlet: max. 10 notes
- Cash out: 3 notes / sec.
- Total: 2,000 notes (SCC) / 1,800 notes (IFC)

Coin recycler of CI-10
CI-10C
- 8 recycle modules
- 150-350 coins / recycle module
- Overflow tray (500 coins)
- Counterfeit detection
- "Follow me" LED sign
- Reject foreign object
- Free layout of recycle module
- Collection through outlet
- Slide extension unit
- Dimensions: W×D×H (adjustable)
  240 × 483 × 820–850 mm
- Capacity: Selectable collection
  50 notes / cycle
  Cash in: 5 coins / sec.
- Inlet: max. 50 coins
- Outlet: max. 50 coins
- Cash out: 4 coins / sec.
- Total: 1,100-3,500 coins / cycle

Banknote recycler of CI-100
CI-100B
- 5 recycle modules (safe bag)
- 6 recycle modules (cassette)
- 300 notes / recycle module
- Selectable collection: 2,600 notes (safe bag) / 3,800 notes (cassette)
- Total: 3,500 notes (safe bag) / 4,800 notes (cassette)
- Counterfeit detection
- "Follow me" LED sign
- Journal printer
- Slide extension unit
- Dimensions: W×D×H (UL 24 hours)
  w/o display: 380 × 835 × 1,100 mm
  w/ display: 380 × 835 × 1,573 mm
- Capacity: Selectable collection
  150 notes / cycle
  Cash in: 5 notes / sec.
- Inlet: max. 150 notes
- Outlet: max. 100 notes
- Cash out: 4 notes / sec.
- Total: 1,100-3,500 coins / cycle

Coin recycler of CI-100/200
CI-100C
- 5 recycle modules
- 1,100-3,500 coins / recycle module
- Collection box: 5,000 coins
- Overflow tray (1,000 coins)
- Counterfeit detection
- "Follow me" LED sign
- Reject foreign object
- Free layout of recycle module
- Dimensions: W×D×H (UL 24 hours)
  450 × 835 × 1,100 mm
- Capacity: Selectable collection
  500 coins / cycle
  Cash in: 15 coins / sec.
- Inlet: input of max 500 coins
- Outlet: max. 40 coins / sec.

Cash management software
CI-SERVER
- Manages CI-10, CI-100, CI-200, RZ-50
- Remote update firmware / template
- Remote log read
- CI-Connector (Cash data / status event transfer function)
Banknote recycler

### RZ-50
- **Capacity**: 4 recycle modules, 300 notes/Recycle Module
- **Collection**: Cassette: 2,000 notes
- **Total**: 3,200 notes
- **Function**: Counterfeit detection, Fit/Unfit detection
- **Measuring**: Inlet max. 150 notes, Cash in: 5 notes/sec.
- **Outlet**: max. 150 notes, Cash out: 4 notes/sec.
- **Dimensions**: W×D×H (UL 24 hours) 400 x 761 x 921 mm
- **Features**: Safe UL 24 hours, Safe CEN III, <Option> Security ink cassette
- **Safety**: 2 line LCD display

### CI-200B
- **Capacity**: 8 recycle modules (w/cassette), 10 recycle modules (w/o cassette), 300 notes/Recycle Module
- **Collection**: Cassette: 2,000 notes (in case w/cassette)
- **Total**: 6,000 notes (w/cassette), 5,000 notes (w/o cassette)
- **Function**: Counterfeit detection, Fit/Unfit detection
- **Measuring**: Inlet max. 300 notes, Cash in: 7 notes/sec.
- **Outlet**: max. 150 notes, Cash out: 6 notes/sec.
- **Dimensions**: W×D×H (UL 24 hours) 420 x 1,046 x 1,181 mm
- **Features**: Safe UL 24 hours, Safe CEN III
- **Safety**: “Follow me” LED sign, Free layout of recycle module

Banknote capacity depends on banknote condition. Coin capacity is calculated in 10 EURO cent. Some features are under development. For more information, please contact Glory Global Solutions.
